

EXPERIMENT 3: Emerging Trends in Low-Code Development for Loan Application Form

Aim

To study the emerging trends in low-code development by designing a Loan Application Form using Zoho Creator and understanding modern features such as automation, validation, cloud access, and rapid application development.

SCREENSHOTS:

This screenshot shows the first section of the 'Loan Application' form. The left sidebar contains a menu with 'Loan Applications' and 'All Loan Applications'. The main form area has the following fields:

- Residential Address ***:
 - Address Line 1: 12, Gandhi Nagar
 - Address Line 2: Near Bus Stand
 - City / District: Perambalur
 - State / Province: Tamil Nadu
 - Postal Code: 621212
 - Country: India
- Employment Type ***:
 - ☐ Salaried
 - ☐ Self-Employed
 - ☒ Student
- Monthly Income ***: 15,000

This screenshot shows the second section of the 'Loan Application' form. The left sidebar is the same as the first screenshot. The main form area has the following fields:

- Applicant_Name ***:
 - First Name: Yogeshwari
 - Last Name: P
- Date of Birth ***: 19-Dec-2006
- PAN Number ***: ABCDE1234F
- Email Address ***: yogaatrec123@gmail.com
- Contact Number ***: +91 9876543210
- Residential Address ***:
 - Address Line 1: 12, Gandhi Nagar
 - Address Line 2: Near Bus Stand

Loan Application

Monthly Income: 15,000

Existing Liabilities: None

Loan Type: Education Loan

Purpose of Loan: Higher studies and academic expenses

Preferred Callback Time: 05:00

Consent for Credit Check: ☒ I agree to the credit bureau check

Submit

All Loan Applications

Applicant Name	Email Address	PAN Number	Contact Number	Residential Address	Date of Birth
Kavya R	kavya.r@example.com	BNQPY4587K	+919123456780	45, Anna Nagar, Near Temple Street, Trichy, Tamil Nadu, Trichy, India	24-Jan-2005
Yogeshwari P	yogaatrec123@gmail.com	ABCDE1234F	+919876543210	12, Gandhi Nagar, Near Bus Stand, Perambalur, Tamil Nadu, 621212, India	19-Dec-2006

Observation

The low-code platform enabled quick form creation, automatic validations, cloud-based access, and easy report generation. It reduced development time and simplified loan application management.

Result

The experiment was completed successfully. It showed that low-code development supports faster, easier, and more efficient Loan Application Form development with minimal coding and modern automation features.
